Notes

- USD exchange rate used for conversion: 1 USD = 2,000,000 Rials.
- "General practitioner with 15+ years of experience" and "ECG (Electrocardiogram)" appear as marginal annotations in the source document, likely qualifying the general-visit and ECG-interpretation rows above.
- The source table's row structure (particularly the two entries for code 970000) reflects the original document as extracted; where the source itself was ambiguous or contained apparent formatting artifacts, the original wording/values have been preserved rather than altered.
